## ARTICLE 7: Breakdown / Recovery Cart / Yellow Light

In the event of a mechanical problem, a replacement kart will be provided to the driver. If the breakdown or damage was caused by the rider, he must wait for the kart to be repaired. If a breakdown occurs on the track, the rider remains in the kart until the recovery kart (marked with a yellow flag) arrives and pushes him to the workshop.

The recovery kart may only be overtaken under yellow light if its driver has given a signal to do so. Each driver must reduce his speed at the danger zone when the yellow light is on. During the yellow phase, competitors are not allowed to overtake each other! After the yellow light is switched off, the race is free again.
